

# Civil Society Forum under the auspice of the Global Disability Summit 2022

## 15 February 2021

### agenda

#### Background

In consultation with civil society partners, IDA and the Atlas Alliance will be organising a Civil Society Forum, as an addition to the Summit, to leverage the opportunity to amplify the voice and participation of persons with disabilities, through their individual participation and that of representative organizations (OPDs). The Forum is an opportunity to highlight current issues relevant to the global disability movement and realization of the CRPD, that will not specifically be addressed at the Summit. The intention is not to duplicate the points that will be made at the Summit, rather provide additional space for Civil Society to make its own contribution to the Summit. The Forum will also set the stage for the more specific dialogues at the Summit on the specific thematic areas.
